EDUCATION

MSc. Data Science and Computing

Sri Sathya Sai Institute Of Higher Learning

05/2023 - Present

Karnataka, India

Courses

- Design Analysis and Algorithms.
- Data Visualization.
- Fundamentals of Computer Organisation.
- Optimization Techniques.

BSc. Computer Science (H)

Sri Sathya Sai Institute Of Higher Learning

09/2020 - 05/2023

Karnataka, India

Courses

- Web Development.
- Operating System.
- Networking.
- Linear Algebra.

WORK EXPERIENCE

Data Science Intern

Sify Technologies

06/2024 - 08/2024

Tasks

- Continued my work on the Personalized Learning Assistant (PLA) with development still in progress.
- Contributed to building a Personalized Learning Platform designed to provide individualized learning paths for students.
- Designed the workflow and architecture for the PLA.

Co-Founder

Eco-Einsteins

02/2024 - Present

[Website](#)

Tasks

- Spearheaded initiatives focused on promoting environmental sustainability and raising awareness about eco-conscious practices within the student community.
- Organized events and workshops to educate and engage students on sustainable living and waste management practices.
- Inspired positive environmental change by fostering a culture of sustainability within the institution.

SKILLS

SQL

Web Dev

React JS

Node JS

Python

CorelDRAW

Machine Learning

NLP

PERSONAL PROJECTS

Personalized Learning Assistant (01/2024 - Present)

- This AI assistant analyzes your weaknesses and tailors study plans, resources, and practice questions to get you back on track!

Saavaad (01/2023 - 05/2023)

- This website translates languages, summarizes text, and converts text to speech. It helps overcome language barriers, comprehend information efficiently, and enjoy content on the go.

StorEtellor (01/2021 - 03/2021)

- A platform where kids can read stories and learn valuable lessons. It was built using HTML, CSS, and JS, and it was my first personal project.
- [Website](#).

CERTIFICATES

Data-driven Astronomy (10/2023 - 01/2024)

Learned data science & machine learning for astronomy (Python, SQL) incl. exoplanet discovery & galaxy classification.

CS50X (01/2023 - 12/2023)

Harvard's online introductory computer science course covers algorithmic thinking, problem-solving, and programming.

The Complete Web Development Boot camp (09/2022 - 05/2023)

This course provided a foundation in full-stack development, front-end (HTML, CSS, JS) and back-end with frameworks like React and Node.js.

Graphic Design in Corel Draw (03/2020 - 04/2020)

Fundamentals of graphic design using CorelDRAW, a popular vector graphics software.
